

Welcome to Specsavers Corporate Eyecare

We've been providing eyecare and eyewear in locations around the world for about 40 years now. So, while we're pretty new to Canada, we've always been about making affordable eyecare and eyewear accessible to everyone. Now we're excited to welcome you to your new corporate eyecare plan.

Why your eye health matters

An eye exam is similar to having a check-up with your physician, although a lot of people don't see it that way. Because getting an eye exam is not just about checking how well you can see, it's also an important eye health check. In fact, an eye exam can detect serious health issues, including high blood pressure, diabetes or glaucoma. We use an advanced 3D eye scan, called an OCT (optical coherence tomography), for every patient, to make sure that there's a record of your eye health and that your optometrist can detect the earliest signs of eye conditions before they become a more serious problem.

What we offer

- 50% lens upgrades for CADA members.
- Comprehensive eye exams with an independent optometrist, including diagnostic testing and OCT scanning as standard, from \$99.
- A range of glasses styles, starting from just \$69, as well as designer brands from \$99, contact lenses and lens upgrades to choose from.
- Make your vision insurance benefits go further with our two pairs of glasses from \$149 offer.
- Great offers and promotions for your company throughout the year.
- With over 110 locations (and counting) in Canada, you're sure to find a location with a friendly team of optometrists and opticians near you.
- Most of our locations are open seven days a week, so it's easy to drop by at a time to suit you.
